COURSE TITLE	**CONSUMER BEHAVIOUR ANALYTICS**
COURSE CODE	**04BA0601**
COURSE CREDITS	**3**

Course Outcomes: After completion of this course, student will be able to:

1 Apply the fundamentals of consumer behavior to formulate effective marketing strategies.
2 Apply data visualization and statistical tools to analyze consumer data.
3 Utilize Google Analytics for tracking and interpreting consumer interactions online
4 Evaluate consumer trends using predictive modelling techniques.
5 Integrate analytical insights into budget planning and marketing execution

Pre-requisite of course: Basic understanding of marketing principles and introductory statistics.

Teaching and Examination Scheme

Theory Hours	Tutorial Hours	Practical Hours	ESE	IA	CSE	Viva	Term Work
3	0	0	50	30	20	0	0

Contents : Unit	Topics	Contact Hours
1	**Introduction to Consumer Behaviour Analytics** Overview of data analysis in marketing, Introduction to data visualization techniques,, working with statistical formulas: logical and financial functions, , Understanding product and category analytics, Competitive analysis and market share evaluation, , Market potential index, Seasonality in sales trends.	9
2	**Analytical Tools for Consumer Insights** Exploring mind and market factors influencing consumer behavior, Budget planning and execution using MIMI (Market-Investment-Metrics-Insights), , Regression and correlation analysis for sales trending, Forecasting methods with predictive investment modeling, Cohort analysis for understanding consumer segments	9
3	**Digital Analytics and Consumer Tracking** Introduction to Google Analytics and its functionalities, , Setting up and managing a Google Analytics account, , Understanding tracking mechanisms and data collection, , Analyzing marketing campaigns and SEO performance, Data processing and report generation, Dimensions and metrics interpretation	9
